## REVERSE LASERMARK

Up charges Apply (FOR MAKING 2ND SURFACE SIGNS)

Why Pay more?  
2nd Surface signs have painted graphics for more color combinations, and are easier to clean, but painting adds to the cost.

|                            |                                  |                                  |                                    |                                    |                                 |

WE USE ONLY THE NOMARK PLUS COATED METALS

FOR OUTDOOR METALLIC PLASTICS SEE THE METALGRAPH PLUS MATERIALS SHOWN AT RIGHT.

INDICATES NON-STOCK ITEM

## TEXTURES

Up charges Apply

Why Pay more?  
The textures are UV stable, more durable and very hard to scratch, but take much longer to laser engrave.

|                              |                                  |                                   |                                       |                                       |                                   |
